Conflict Minerals ("3TG")

In response to your recent request, concerning our A, D, E, EW, H, K, M, N, P, W Series Pigment Foils (Manufactured after 1991), from the data received from our raw material suppliers and manufacturers, to the best of our knowledge, we do not believe that the following are present:

Columbite-tantalite (ore for extraction of tantalum), Cassiterite (ore for tin production), Wolframite (source for tungsten) and Gold.

However, any anomalous or trace quantities may exist as impurities in our raw materials. A substantial number of our raw material suppliers and manufacturers, as well as in prior succession, further upstream raw material suppliers and manufacturers, may not routinely test or screen for the presence of these. Additionally, any of our raw material suppliers and manufacturers may at a future time, provide other information to alter this statement. None of these chemicals are deliberately added as a raw material component to our products. Custom Foils Company does not routinely test for the presence of these.
